Shopkeeper .. .	D. Richards

Prior-Garcia

Recently to hand is this photograph of Second Officer John W. Prior, now serving on Clan Macgillivray, who was married to Miss Lillian Garcia at the Cathedral of St. Mary The Crowned, Gibraltar, on 19th June, 1965. Joining the bridal pair during the reception at the Mediterranean Rowing Club is Miss Dorothy Prior, a former Children's Hostess ex Transvaal Castle

THE BRITISH SHIP ADOPTION SOCIETY

"Personal" Ties

Two new "personal" links recently forged are those between Mr. R. C. Wilson, Purser, *Clan Maclean*, and the Danesbury School, Warren Park Road, Hertfordshire, and Mr. R. J. Wilson, Senior Second Engineer, *Rotherwick Castle*, and the Leeson's Junior School, St. Paul's Cray, Kent.

A Broken Link

Roxburgh Castle is no longer "adopted" by Pinehurst Avenue Junior Boy's School, Liverpool. The ship's present Master, Captain H. J. Thorn, resides in South Africa and feels he will be unable to make an effective ship-school link.

Mears-Speak

Mr. Michael Mears, 2nd Purser Pen-dennis Castle, and his wife, the former Miss Anne Speak, pictured after their wedding at St. Andrew's Church, Ashton, Preston, on 12th November, 1965.

Before her marriage Mrs. Mears was employed by French of London, as a hairdresser, on Reina del Mar

Mementoes received

Children in the Peel Hall County Primary School, Wythenshawe, Manchester, have received from Captain R. N. V. Rewell and his personnel in *Clan MacLay* a carving of a Ceylonese bullock wagon, plastic figures of the various inhabitants of Ceylon, two Cockerel figureheads from Leixao, Portugal, and a Lifebuoy.

They board "Their Ship"

When *Clan Macnair* called at Avonmouth at the end of January, Captain J. Browne and his personnel invited on board a party from the Redland Training College, Bristol. The visitors were shown round the ship and entertained to high tea, after which a party developed with the ship's officers in the smoke room. Captain & Mrs. Browne had bought a few Zulu curios at Durban which they presented to the students, together with some descriptive literature, charts, coral and shells.
