

Smoke Signals

An incubator from the mailship

On April 30 Captain Alec Hort, accompanied by some of the ship's company from *Windsor Castle*, went to Southampton Children's Hospital to present to the hospital an Oxygenaire incubator.

The story began just twelve months ago, when from *Windsor Castle* a donation of £241 14s. 3d. was made to the hospital. The hospital decided to put this money towards a new incubator, which would cost £425. Since that time further sums have been collected from *Windsor Castle* and also *SA Oranje*. When *Windsor Castle* sailed in March only £22 18s. 3d. was still required. That sum was collected during the voyage, and when Captain Hort went to the hospital he took with him a cheque for £25.

The money raised has come partly from fairs organised by children travelling on the two ships, but nearly 40 per cent. has been contributed by the *Windsor Castle* Crew Social Club.

Captain Hort presenting the cheque and the incubator to the matron of the hospital, Miss J. Cradock. Also in the picture are (from left to right) Dr. W. H. N. Angus, chairman of the hospital house sub-committee, and from *Windsor Castle* Mr. T. Lee, chairman sports and social club, Mr. R. Tarrant, barman, Mr. R. Light, chef, Miss M. Greening, head stewardess and Mr. J. Stewart, bosun's mate
