### Cadets' three-day Southampton visit

■ Warsash deck cadets and Plymouth engineer cadets of B&C visited Southampton on November 13 to 15. The first day's activities included lunch in the *Tendinus* restaurant followed by tours of the Pendennis Castle bridge, accommodation and engine room, tea and dinner on board the mailship. Fleet management staff and their wives attended the dinner.

On the second day there was a visit to Vesper Thornycroft repair works and the Eastern Dock Radar Control Station, after which the cadets were greeted at the Union-Castle offices by David Aries, assistant technical manager, and Capt. C. J. Abbott, training officer. The tour continued on the Friday with a visit to the cargo mailship Southamp-ton Castle, including a talk by Bill McEwan (assistant manager, operations) on the group's activities in Southampton and on the South African run. A final lunch was held at the Merchant Navy Hotel.
